Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

It's time that you take the effort to help the average American, not the corporate CEO's who have been getting away with having others pay for their extravagant lifestyles. It is apparent that this sort of corruption and total disregard for what is fair and right has been going on for years and is just now being exposed. And it's SAD that this current administration is in bed with the corporate big wigs and has dragged its feet on implementing any real and lasting punishment/consequences to these people.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Charles Smith
